# WIDE-DIAMETER CLOSURES

featuring 120-DCT EcoStack®

## The PHOENIX Advantage

The quality you can depend on from PHOENIX continues with our expanded portfolio of **wide-diameter closures**.

Our EcoStack® product line is expanding with new sizes in addition to our Classic Continuous Thread closures. Pairing wide-diameter closures with HP Scoops® brings the perfect, **one-stop solution** for many markets including consumer healthcare, restaurant supply, wholesale food, and many others.

Made in the USA, PHOENIX closures offer shorter lead times, consistent quality, and **stocking programs** to help prevent any supply chain concerns.

## CUSTOMIZATION OPTIONS

- Multiple finishes
- Match your brand or colors
- Printing and embossing options available

HOW DO  
YOUR  
CLOSURES  
STACK UP?

 EcoStack®

MORE CLOSURES | LESS PLASTIC  
SMARTER PACKAGING

### More closures per pack

EcoStack closures are nested to increase your pack count up to 87%.

### More economical

The stacked design reduces shipping costs by giving you more closures per delivery and uses less warehouse space for same quantities.

### More ecological

EcoStack closures are manufactured using less resin while still maintaining quality.

### More consistent quality

EcoStack closures are stacked to reduce warpage. This helps increase line speeds for better production efficiencies.

### More confidence

EcoStack closures are exclusively made by PHOENIX in SQF-certified USA facilities.

PHOENIX™

FEATURED

**120-DCT** 120mm Deep Continuous Thread **EcoStack®** Closures

**FOCUSED ON SUSTAINABILITY**

- Maximized pack counts means more efficient shipping and less greenhouse gas emissions
- Minimized resin reduces plastic waste while still maintaining cap integrity

**COMPETITIVE EDGE**

- Our pack count and stack count are higher than competitive closures
- PHOENIX offers more consistency during production with less variability in cap weight
- Our EcoStack 120-DCT closures have built-in vents to prevent caps from sticking together when stacked
- Currently at standard lead times

**STOCKING PROGRAM**

- Expansive offering of products compared to our competitors
- Continuously adding additional items to meet customers' needs
- Typically ships in 2-3 days
- Low MOQs

**KEY FACT**

**With EcoStack®, get up to 87% more closures in every pack**

PHOENIX EcoStack® closures allow for many more caps per pack and truckload versus Classic CT Closures
